# More information you can look at

From any of the lists, you may see the following icons which provide more information on the electronic resources when you click on it.

## About the resource

*Provide a description of the resource and the subject areas it covers.*

中國基本古籍庫

Collects over 10,000 kinds of Chinese classic ancient books, dated from the pre-Qin era to the period of Republic of China. This database contains more than 1.7 billion words, about 12,600 image editions, and over 1.5 million pages of original images. The contents cover almost all parts of Chinese history and culture. It is the most comprehensive collection of classic ancient books through the ages in Chinese history.

Subject area: Chinese Civilization, Classical literature, History of China

## Guide
